

MEDICAL BILLING & CODING CERTIFICATE

This program will provide the student with the knowledge and understanding to analyze medical records and assign codes to classify diagnoses and procedures while applying the principles of professional and ethical conduct. The program will prepare the student for an entry-level position as a medical coder in a hospital, clinic, physician's office, or other healthcare facility.

LEARNING OUTCOMES

Upon completion of the Medical Billing & Coding Certificate, students will be able to:

1. Demonstrate critical thinking skills while applying knowledge of specialized medical terminologies, insurance, and regulation systems.
2. Apply a variety of computer skills necessary to prepare documents related to billing, coding, and health care settings.
3. Demonstrate soft skills and qualities expected for this career field.

Certificate Requirements	Credits
